

Olivia Collins, CPA

Engagement Manager

Olivia is an Engagement Manager at SVA Consulting with expertise in strategic IT alignment, regulatory compliance, third-party risk management, vendor management, and process optimization.

With a background that bridges both accounting and technology, Olivia helps organizations design and implement solutions that strengthen governance, enhance operational efficiency, and align technology capabilities with business strategy.

Olivia works with clients across the financial services, professional services, and technology sectors, where she provides guidance on ERP implementations and digital transformation initiatives. Her approach ensures that solutions are not only scalable and efficient, but also compliant with evolving industry standards. She leverages proven methodologies to help organizations successfully navigate complex regulatory and operational environments, with a focus on long-term resilience.

A key area of Olivia's expertise lies in regulatory compliance and security standards. She has extensive experience guiding clients through SOX compliance, SOC 1 and SOC 2 audits, and third-party risk mitigation, providing practical frameworks that reduce exposure and build confidence among stakeholders. By combining technical knowledge with a deep understanding of governance, Olivia enables clients to meet compliance obligations while driving business growth.
